

Mobile Shop management software is the complete software for managing your mobile shop. This software is designed to meet your needs with flexible tools and personalized features that helps to provide better and faster customer service with accounting features and business management tools such as Invoicing, Payroll, Service, Business Reporting and more.

Mobile Shop management software allows keeping a record of mobiles, accessories, storage devices, parts and also the services like flexi, SIM activation, coupon, mobile repair etc...

Mobile Shop management software allows organizations to generate pay slip and salary register based on the attendance of the employee, leaves, allowances, advance, bonus, and other standard deductions. You can assign the employee a salary structure for generating and managing payroll process with respect to that employee.

Mobile Shop management software saves your time, compared to handling the books manually. The program's interface is designed to be simple and can be grasped in minutes even by inexperienced computer users.

Special Features

- Saves time by easy and quick viewing of all history related to particular customer or vender transactions at any point in sales or purchase process.
- Flexi can be done at any time, as easy as possible.
- You can even keep the record of claims gained through Flexi, SIM and Coupon .
- All transactions of SIM, Coupon and Flexi can be maintained.
- Claim register, which shows all the pending, received and rejected claims according to service provider and date.
- Generate pay slip and salary register based on attendance of employee according to leave, allowances, advance, bonus, and other deductions.
- Services can be made much easier and flexible.
- Services can be done similar to that of using books like managing the customer details, estimation and bill.
- Can easily retrieve the service report.
